Instructions to Remove Rubber Grip from Handle (So, Extension Handle Can Be Inserted in Safety Handle)

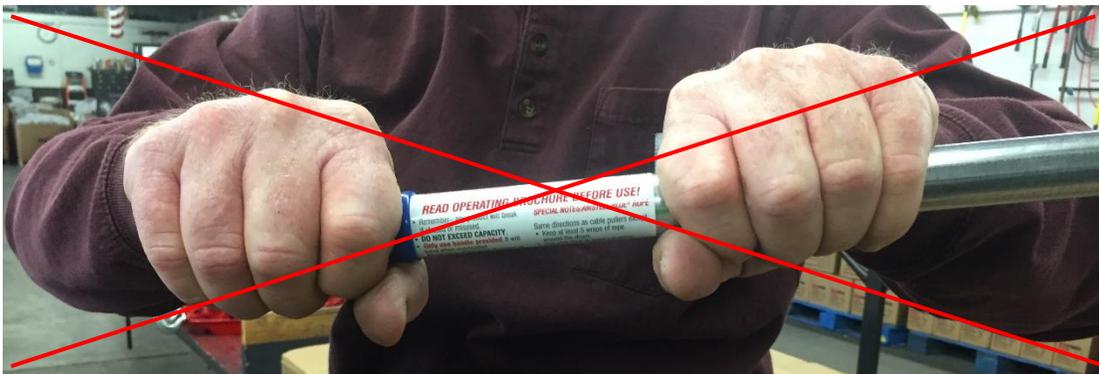

Please feel free to call with any questions:

800/743-4521 or 740/345-4528

Best time to call for technical assistance is Monday thru Friday 8:30 to 4:00 ET

**THERE ARE MANY WAYS TO DO THIS
BESIDES SHOWN BELOW...**

WRONG WAY

- The above is the **WRONG WAY** to remove the grip.

- If you squeeze the grip this creates friction and it nearly impossible to pull the grip off.

Be careful not to damage: • **Your property** • **The warning label** • **Yourself**

- **These directions are not in any particular order.**
- **It will depend on your strength as to which way is best for you.**

OPTION 1

Crescent Wrench & Vice

- Place crescent wrench into vice and tighten so it is not able to move.
(See picture for crescent wrench placement)
- Insert the handle into the crescent wrench and tighten.
 - Do not over tighten. You will need wiggle room to pull.
- Begin to pull the handle from the end with no grip and the rubber grip will begin to slide off of the handle.

OPTION 2

Vice

- Place handle into vice and tighten vice just enough that it fits the handle and not the grip.
- Make sure the rubber grip is not placed in the vice.
(Refer to pictures for handle placement)
- Do not to over tighten the vice, as you will need enough wiggle room to pull.
- Begin to pull the handle from the side with no grip and the rubber grip will begin to slide off of the handle.

OPTION 3

Reel on Puller

- Place grip/handle on edge of the reel.
(Refer to pictures for handle placement)
- Hold puller firmly!
- Pull handle quickly to your "side".

OPTION 4

Crescent Wrench

- Put crescent wrench on handle. (1st picture)
- Grab close to wrench. (2nd picture)
- Pull the crescent wrench &/or on the other side of handle. Do not grasp the grip. (3rd picture)

OPTION 5

Vehicle

CAUTION: Only use an edge that cannot be damaged

Door Edge

Tailgate Edge

Receiver Edge

➤ **THESE INSTRUCTIONS ARE ONLY MEANT TO BE A BASIC GUIDE. THE WYETH-SCOTT CO. SHALL BE HELD HARMLESS FOR INJURIES RESULTING FROM IMPROPER REPAIR OF THE PULLER. ⚡**
